FURNITURE

Square One

It all starts with a basic shape. A simple square that can be built up in a limitless number of ways, allowing you the freedom to design functional works of art without the need for conventional construction.

Square One can easily define space between workers and create areas or zones within the open plan to encourage collaboration or allow for focused work and conversations. Configurations range from huddle zones to privacy booths, meeting areas to wall dividers...the options are truly endless.

Add function without sacrificing beauty. Acrylic Inserts, Tackable and Acoustical Panels, Dry Erase Boards, TV Mounts, and Power Centers give your space the ability for more privacy, collaboration, or brainstorming.

Square One is responsible too. It considers the environment by using renewable and recyclable materials, allowing it to achieve BIFMA level® certification. Further, with its ease of assembly and reconfigurability, it helps to optimize the long term cost of ownership.
